FUNDRAISING GOAL: \$2,300  
FUNDRAISING DUE: February 19th, 2017 (no exceptions!)**

The 2017 FDX Baja Boogie Adventure is an experience designed to be athletically challenging but more importantly as an opportunity to commune with nature, specifically some seriously charismatic marine life. Throughout the trip you'll be exposed to world-class snorkeling with sea lions and whale sharks: there will be opportunities to assist and learn from whale researchers: sea kayaking and stand up paddle boarding alongside grey whales (if your comfort level allows!): cultural adventures in the local villages: hikes to caves, hot springs and so many other options!

Baja is a perfect place for someone looking for an international adventure but who may not have the time to devote to longer travels further from home. So dig out your flip-flops, board shorts and SPF and join us for the first of the 2017 FDX offerings.

We are hoping to set a tone this year (and for years to come) for FDX where people can more clearly understand the dual nature of FDX. First and foremost these trips are part of our FDNA and reflect our culture of Out Living It! The adventure that began on an FD1 never has to stop there, whether it was the activity, the community, or the campfire that had the greatest impact ... Secondly, but of equal importance is the fact that FDX is also

one very important way alumni can “pay it forward” to other AYA’s impacted by cancer. A contribution is built into every fundraising minimum for any and all FDXs.

While you head to Baja with Tarkio, you can sleep easy knowing you're also going for someone else...
