

# DESIGN CUSTOM PROGRAMS

THESE PROGRAMS ARE AMAZING,  
& THESE ADVENTURES ARE ONE OF  
THE RARE PERKS IN AN OTHERWISE  
PERCEIVED PERK-LESS CANCER  
SCENARIO.

- Seattle Children's Hospital

## PARTNER WITH FIRST DESCENTS

- Create custom adventure programs for your adolescent and young adult (AYA) cancer patients
- Expand and enhance existing AYA offerings
- Collaborate on local fundraising opportunities

## FIRST DESCENTS INTEGRATED HEALTHCARE PARTNERSHIPS

provide an opportunity for young adults impacted by cancer to attend a First Descents experience in close proximity to their medical center. Our programs ensure individualized care, medical attention, and intimate experiences with other young adults impacted by cancer.

## ADVENTURES

Sponsor a group of 8-12 of your patients to experience a First Descents adventure within 2-3 hours of the partnering healthcare organization. First Descents coordinates all programmatic aspects, including staffing, equipment, and transportation. First Descents will also provide co-branded marketing materials and assist in identifying eligible participants.
