WHO WE SERVE

YOUNG ADULTS LIVING WITH AND SURVIVING CANCER

Founded in 2001, First Descents’ mission was to serve young adults impacted by cancer. Since that first whitewater kayaking program, we’ve provided outdoor adventures to thousands of oncology participants who have since built and maintained a thriving community of adventure and peer support.

YOUNG ADULTS LIVING WITH MULTIPLE SCLEROSIS

In 2018, First Descents piloted our first program for young adults impacted by MS. After FD Founder Brad Ludden was recognized in 2016 as a Top 10 CNN Hero, we realized that adventure could be transformative for young adults impacted by other serious health conditions. Now, we have the research and experience to prove it. Since 2018, we’ve continued to develop our programs for those living with MS year after year.

CAREGIVERS

In an effort to better serve young adults, First Descents continues to expand programs to new communities. We know that serious health conditions impact family members and supporters, though these caregivers are often left without resources and community. Since 2013, we’ve offered programs to oncology caregivers. As we continue to expand our MS programs, we plan to provide outdoor adventures to MS caregivers as well.

HEALTHCARE WORKERS

In partnership with the Dunkin Joy in Childhood Foundation, First Descents launched HERO RECHARGE - outdoor adventure programs for frontline healthcare workers in 2020. Initially focused on healthcare workers fighting on the COVID-19 frontlines, First Descents plans to scale our healthcare worker programming to those who serve oncology and MS patients.
Expand Programs
With more than 640,000 young adult cancer survivors living in the U.S., First Descents (FD) will expand programs to improve survivorship and quality of life. Further, FD will explore and develop programs for young adults coping with other health conditions.

Build Community
Young adults coping with health conditions often experience feelings of isolation and alienation. FD will strengthen local adventure communities and nurture supportive peer relationships that provide ongoing healing.

Prescribe Adventure
Hospitals lack age-appropriate psychosocial survivorship programs for young adults. FD will build upon its network of healthcare professionals to reach more young adults earlier in the treatment process.
First Descents builds partnerships with companies seeking meaningful corporate social responsibility activation.
With over 10,000 participants served, there are endless opportunities to create stories together about the healing power of adventure, community, and resilience in the face of a cancer or MS diagnosis.

Engage in joint brand storytelling opportunities and content creation for use in marketing and community engagement.

Examples Include:
• Out Living It Blog Features
• Internal Communications Content
• Visual Asset Creation (films, narrative documentaries, photos, etc.)
• Cause Marketing Materials
